Education

DUTCHTOWN HIGH SCHOOL / PENN FOSTER HIGH, Hampton, Georgia

High School Diploma

GOOGLE & SCRIMBA

Android Development Course & Frontend Development

Work Experience

LAUNCHCODE

REMOTE

Web developer IA

11/2023-Present

- Assisted 14 learners in web development using React, Spring Boot, Java, HTML, CSS, and JavaScript, achieving a 10% lower dropout rate compared to other classes.
- Developed tailored exercises and notes to allow for learners to understand difficult concepts, and allows more efficient learning.
- Managed communications through platforms like Discord and Calendly, enabling efficient scheduling and ability to help learners.

AscensionByElyse

Jonesboro, Georgia

Chatbot/Backend Developer

9/2023-10/2023

- Learned diverse skills to tackle unique client problems, designed and wireframed sites using Figma, and implemented flexible UI with animations and SVGs.
- Researched and planned a advanced Business Chatbot, integrating Tesseract OCR for data input ease, leading to monthly savings and *improved workflow* through Vue, Kotlin, Spring Boot, MySQL, and OpenAI API.

Atlanta Labor Council

Atlanta ,Georgia

Canvasser

8/2022-1/2023

- Worked as a canvasser, going door-to-door to inform and ask union members about questions surrounding the election, and also helped some register to vote.

Project

Streaming-application??

2024

A platform allowing users to upload educational videos with live chatrooms/comment system.

- Management of Jira & Git version control to allow collaborations with other developers in team environment
- Building of backend using Springboot kotlin that uses Azure sql, along with wireframing on the frontend.

[ArticleCraft](#)

September, 2023

Crafted a Full Stack App for seamless article creation, search, and liking with React and Node.js

- Incorporated Cypress for unit testing and deployment on AWS Lambda, ensuring a reliable and smooth user experience.
- Integrated AWS S3 for 7x faster image retrieval and optimized data querying with skip and limit strategies.
- Technologies used: NextJS, MongoDB, Tailwind CSS, Express.js, Multer, Figma
